It offers a groundbreaking approach to caring for kids and supporting parents. Children thrive in a state-of-the-art program where they are comfortable, safe and stimulated. It is a happy space with services and resources that meet the needs of children who require continuous therapeutic or skilled nursing supervision or children needing traditional day care and preschool services. # MEET LOLA |

Lola Savage took her parents' lives by storm when she entered the world in a blizzard. Lola's mother, Paula, experienced a difficult pregnancy and realized something wasn't quite right. After some scans, Lola was diagnosed in utero with arthrogryposis, a rare condition that is commonly associated with joint contractures and lack of movement due to low muscle tone. To limit further damage Lola was delivered early.

After multiple surgeries, the Savages found out through genetic research that Lola has a mutation of her *bicd2* gene – an even rarer form of spinal muscular atrophy.

When they began therapy at Associates in Pediatric Therapy, they heard about Sproutlings Pediatric Day Care & Preschool at Kosair for Kids Center. "Because they are both located on the Louisville Campus, Lola's APT therapists visit her weekly," said Lola's dad, Jordan. "Each classroom has a dedicated nurse and I cannot express the sense of security and confidence this gives us knowing she is well cared for."

It was also important to the Savages that Lola could interact with typical children early on in her development. They believe this integration has helped Lola develop much quicker cognitively and emotionally.

With Lola's disease as rare as it is, the Savages do not have a blueprint for her life. "We aren't sure what the future holds for her," said Jordan. "Sproutlings however is a known, constant presence in her life and a place we can count on."
