WHY | To help medically fragile children thrive

Sproutlings is the only Prescribed Pediatric Extended Care (PPEC) center in the region that fully integrates every child, every day. Children thrive in a state-of-the-art program where they are comfortable, safe and stimulated. It is a happy space with services and resources that meet the needs of children who require continuous therapeutic or skilled nursing supervision or children needing traditional day care and preschool services. We use a fully inclusive approach so every child can learn, play, heal and grow with one another.

MEET ELEANOR

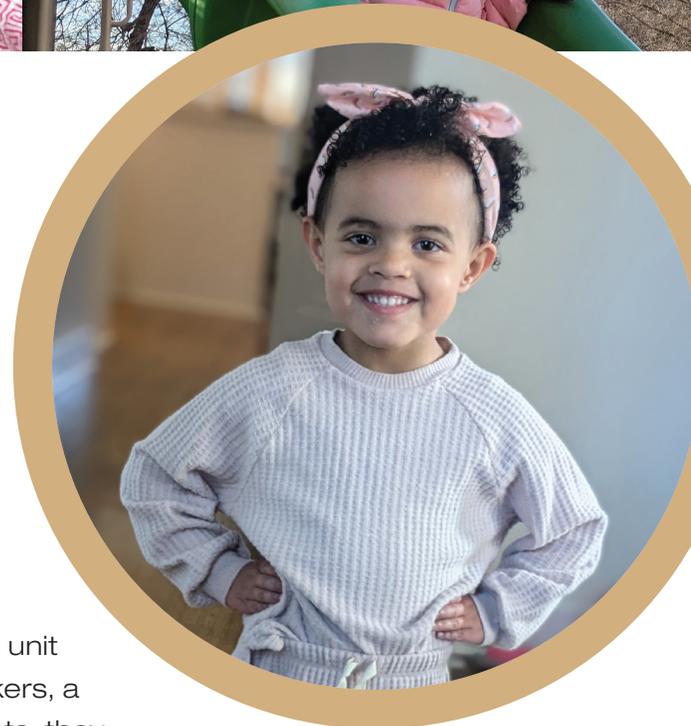

Just looking at Eleanor Iwu, you would never know all her little body has endured. Her medical needs are complex. When there is an issue, she needs immediate skilled care.

Eleanor's medical journey began before she was even born. At a 20-week ultrasound, her parents learned something was wrong. Through the expertise of specialists throughout the country and a 36-person medical team, Eleanor was born at 36 weeks with a rare heart defect.

She spent her first seven weeks in the Cardiac Intensive Care unit undergoing multiple open-heart surgeries including pacemakers, a defibrillator and time-sensitive medications. As working parents, they knew they needed caregivers who could provide the level of care Eleanor required. They also wanted Eleanor's two-year-old brother Oliver to be at the same place. Then, a co-worker told Lena about Sproutlings Pediatric Day Care & Preschool at Kosair for Kids Center, and they found the perfect answer to their unique situation, right in their community.

Sproutlings is a more than 13,000 sq. ft, inclusive learning environment providing a place for 130 children to learn and grow together. Along with traditional day care and preschool curriculum, it also offers skilled nursing care. Occupational, physical and speech therapy services are offered through Associates in Pediatric Therapy, conveniently located on Masonic Homes Kentucky's Louisville Campus.

Eleanor's parents say Sproutlings and its team gave them an opportunity to breathe again. Every day she is surrounded by warmth and safety in an environment where each child receives the care they need to thrive.
